ORNAMENTAL SHADE

- (C) One year, rooted cuttings.
(S) Seedlings.
(G) Grafts.

Each (T) indicates one transplanting.

OUR Number One rooted cuttings in most cases run at least 12 to 18 inches high; some stronger growing varieties 18 to 24 inches; a few weaker sorts 8 to 12 inches. We grade our cuttings for root system and assure you a heavy well rooted grade.

Quantity	Variety	Per 100	Per 1000
2000	ACER palmatum atropurpureum. Grafts. 2½ in pots. . .	\$45.00	\$400.00

SHRUBS

WE USE full size pots in our greenhouse. For instance we find our 2 in. pot is as large as the 2¼ in. pot used by most concerns. Moreover—haven't you noticed the difference in life and rapidity of growth of a pot plant **grown right from full sized cuttings?** Cole's planters are healthy, hardy and husky.

Quantity	Variety	Per 100	Per 1000

EVERGREENS

OUR potted evergreens are extra strong, having been grown from large cuttings rooted last winter and potted in the early summer. They have made a splendid bushy top growth and are in fine shape to plant now or as early in the spring as you wish.

However, we can root special this winter the varieties listed below and a good many other sorts, at a price somewhat under the price for this year-old stock. This stock could not be delivered until June or July. Advise us the quantity you wish to contract and we will quote you the special price.

Quantity	Variety	Per 100	Per 1000
2000	JUNIPERUS chinensis pfitzeriana. 2¼ in. pots.	\$20.00	\$175.00
